Adjust-A-Box® Residential Floor Boxes

1-, and 2-Gang Adjustable

Carlon Adjust-A-Box® Floor Boxes make installing floor outlets faster and easy by providing maximum installation flexibility. The box features a patented adjustment screw designed to adjust the box from 0” to 1-3/4” by simply turning the screw clockwise or counterclockwise, providing a flush mount every time.

Covers are able in three types; nonmetallic, brass, and stainless steel. They feature two hinged doors to protect unused devices, and to keep out dust and scrubwater. Because the doors are attached, they won’t get lost or misplaced while the outlet in use.

The Adjust-A-Box® is available in two sizes, single-gang and double-gang. The single-gang box has a 20 cubic inch capacity and includes a duplex receptacle, and the double-gang box has as 34 cubic inch capacity, and comes with a divider for dual voltage capabilities.

Carlon Adjust-A-Box® Residential Floor Boxes are ideal for residential and home office applications and provide a clean, aesthetically pleasing floor outlet anywhere you need it.

Features

- Listed floor boxes per 314.27(C) of the NEC
- Patented adjustment screw that adjusts depth (from 0” to 1-3/4”)
- Cover options include: nonmetallic, brass, and stainless steel covers
- Covers have two (non-removable) hinged doors
- Solid brushed brass and stainless steel covers with a light lacquer finish for extra protection
- Nonmetallic covers are available in white and ivory (single gang box only)

- Two-Gang version features dual service capabilities (requires use of dual service divider)
- Integral cable clamps
- Ideal for new work and retrofit applications
- UL listed
- UL scrub water tested
- 2 hour fire classification (single gang box only)

*U.S. Patent 5,289,934

Adjustable Floor Brackets

Low Voltage Adjustable Floor Bracket w/ Cover

The Carlon Low Voltage Adjustable Floor Bracket is specifically designed for the low voltage, structured cabling market...the floor bracket is industry standard orange to identify low voltage applications, the open design provides the space needed for low voltage bend radius requirements, and the Leviton QuickPort® Quad 106® Insert provides up to four low voltage outlet ports. The Carlon Low Voltage Adjustable Floor Bracket is ideal for any residential or commercial low voltage application.

The floor bracket also features a patented screw design allowing it to be adjusted to most finished floor heights by simply turning the screw clockwise or counterclockwise and adjusting flush to the floor.

The floor bracket kit comes complete with a nonmetallic (white or ivory) or brass cover, a Leviton QuickPort Quad 106 Insert, new work and old work metal mounting brackets, and mounting screws.

Carlon Structured Cable Management Systems...Your Total Systems Solution!

- White, Ivory, or Brass Cover
- Orange – Identifies Low Voltage Installations
- Open Design Floor Bracket – Accommodates Low Voltage Bend Radius Requirements
- Patented Adjustable Screw – Bracket Adjusts to Most Finished Floor Depths
- Leviton QuickPort Quad 106 Insert – Install up to 4 Low Voltage Inserts
- Two-Door Design
- C-UL-US Listed

Installation:

Install clip over subfloor.
Screw in to adjust to height of flooring or carpet.
Beautiful flush fit every time!
The Carlon Drop-In Floor Box with Brass Cover combines many of the same features in our existing Floor Box line with the strength, durability and style necessary to accommodate today’s residential electrical/telecommunication needs.

The Carlon Drop-In Floor Box is the fastest easiest way for contractors to put a floor socket anywhere they need it! It’s designed to accommodate high and low voltage applications and comes complete with everything needed for installation - Floor box, Brass Cover, hole saw, wired receptacle, two-hole low voltage plate, blank plate, mounting screws, and wire nuts.

Note: The Drop-In Floor Box is available with or without a hole saw.

Features

- Single hole installation
- Fast, easy installation
- Solid brass cover has a light lacquer finish to resist wear - Ideal for high traffic areas
- Accommodates high and low voltage applications
- Includes single gang grounded receptacle, low voltage telephone/cable plate (data jacks not included), and blank plate for custom installations
- Available with or without a hole saw
- 11.8 inch cubic capacity
- For wood floor installations
- Ideal for residential and home offices
- Eliminates the need for extension cords
- Superior aesthetics - Ideal for home offices and entertainment rooms
- C-UL-US Listed floor box per 314.27(C) of the NEC
- 2.25" installation hole diameter
**Drop-In Floor Box**

**Installation**

1. Cut 2-3/8” hole through carpeting before using hole saw.
2. Drill hole in floor using hole saw.
3. Pull romex through floor.
4. Connect receptacle wires to romex. Be sure to match wire color(s).
5. Secure wire clamp on bottom of tube.
6. Brass cover snaps into place. Use a small screwdriver to pry open brass cover to plug in appliance.
7. Align the three latches on the low voltage plate with the three latch holes in the round floor box tube.
8. Remove receptacle by pressing three tabs located on side of tube. Remove receptacle by pressing three tabs located on side of tube.

**Installed**

Residential Slab Floor Box Assembly

Residential Slab Floor Box

The Carlon Residential Slab Floor Box makes installing floor outlets in concrete slabs faster and easier. The box/extension sleeve is designed to be saw-cut to accommodate any concrete floor thickness up to six inches with no leveling required. It features a divider for dual voltage service, and comes with a mud cap to keep out cement during the pour. The cover has a single hinged door that lies flat when open, and accommodates a single electrical outlet (provided) and a low voltage port (data jack not included). It has a light lacquer finish for extra strength and durability in high traffic areas, and is UL scrub water tested.

Features

• Dual service divider *(included)* to allow dual service in one box.
• Saw-cut to finished concrete pour — No leveling required.
• Single receptacle chamber: 17.25 cu.in. Data jack chamber: 15.06 cu.in. for easier wiring. (Cubic inches based on 6" box/sleeve depth).
• Cover options include: Brass and Stainless Steel.
• Pre-assembled Solid brass cover for superior aesthetics and durability. Single electrical receptacle included. **Data jack NOT included.**
• C-UL-US Listed per 314.27(C) of the NEC.
• UL 514C scrub water tested.

Rectangular Floor Boxes

1-, 2-, and 3-Gang

Carlon® Rectangular Floor Box Systems – three-way power, data, and communications plus easy double or triple ganging, too.

Compared to metal boxes, Carlon rectangular floor boxes cost less and install faster to save you money on every job. Three-in-one power, data, and communications capability cuts installation time and cost even more, while simple two- and three-gang modularity gives you the flexibility, installation ease, and cost-savings no other nonmetallic boxes can match. The covers attach without the use of fasteners, providing a professional, clean installation as well as preserving the aesthetic life of the product. Take a closer look at all our rectangular floor box systems offer you.

Features

- Covers require no adjusting collar. Two screws assure a flush, secure installation.
- Nonmetallic PVC construction, watertight gasket, and corrosion-resistant hardware assure long life and reliable performance even in harsh and/or corrosive environments.
- One consistent box depth simplifies ordering time and reduces inventory.
- Saves time and money on installations with simple saw cut to floor level.
- Concrete tight and suitable for any on grade/below grade application; concrete or wood sub-floor construction approved.
- Convenient cubic inch capacity markings on inside allow for easy inspection.
- PVC molded ports and reducer plugs included.
- Accepts 1/2", 3/4", and 1" conduit, tubing or raceway.
- Rectangular sides are drillable.
- For tile and carpet applications.
- Cover options include solid brass, stainless steel and nonmetallic (brown, slate, and caramel).
- UL scrub water tested, approved for all types of finish flooring.

*U.S. Patent 5,866,845
Rectangular Floor Boxes

Installation

With our rectangular boxes, one SKU is all you ever need. Simply remove appropriate sides and slide boxes together to create two- or three-gang boxes for on-the-job flexibility no competitor offers.

Rectangular Floor Box Covers – Nonmetallic

1-, 2-, and 3-Gang Nonmetallic

On-the-job flexibility extends to our rectangular box covers. Each one-, two-, or three-gang cover is suitable for any wiring application and can be used with any floor surface. Nonmetallic covers are even field reversible for tile or carpet. Double door feature allows easy access to the device and helps keep stray cords organized.

*U.S. Patent 5,866,845

Features

- High impact resistant thermoplastic
- Field reversible for tile or carpet
- Gasketed for a watertight seal
- Double door design
- For tile and carpet applications
- UL scrub water tested

Carlon Rectangular Floor box covers do not require a separate carpet flange. The carpet flange is part of the cover and may be removed for tile application.
Rectangular Floor Box Covers – Brass & Stainless Steel

1-, 2-, and 3-Gang Solid Brass & Stainless Steel

Carlon® Brass and Stainless Steel rectangular Floor Box Covers add a classic touch to all floor box installations and are particularly suited for use in high-traffic areas because of the resistance to wear. The gasket gives a watertight seal, and the light lacquer finish provides extra protection.

Features

- Rugged construction.
- Coated with a light lacquer finish for extra protection.
- Covers include a cord door.
- Gasketed for watertight applications.
- Accepts single, duplex, GFCI, and low voltage receptacles.
- For tile and carpet applications.
- UL scrub water tested.

*U.S. Patent 6,265,662
Carlon® Round Floor Box Systems – three-way versatility for power, data, and communications.

Carlon round floor boxes give you the same cost-saving advantages over metal boxes as our rectangular boxes. By letting you combine power, data, and communications in the same box, you can dramatically reduce your installation time and cost compared to other nonmetallic boxes. In addition, multi-use covers mean fewer SKUs to deal with and greater jobsite flexibility to increase your savings further. Take a closer look at all their advantages for yourself.

Features

- Nonmetallic PVC construction, watertight gasket, and corrosion-resistant hardware assure long life and reliable performance even in harsh and/or corrosive environments.
- Covers are available for a variety of applications.
- The same box depth simplifies ordering and reduces inventory.
- For tile and carpet applications.
- Cover options include: Brass, Stainless Steel, and Nonmetallic (Ivory, Caramel, Taupe, Slate and Brown).
- Concrete tight and suitable for any on grade/below grade application; concrete or wood floor construction approved.
- Y-connector (E972Y) allows you to feed parallel runs of 3/4" conduit or to feed in/out from the same side for increased wiring flexibility and faster installation.
- PVC molded ports and reducer plugs included.
- Accepts 1/2", 3/4", and 1" conduit, tubing or raceway.
- UL scrub water tested, approved for all types of finish flooring.
Round Floor Boxes

Specifications

Round Floor Box

Carlon Round Floor Boxes allow for various thickness of concrete pours. Trim out is easy – just use a handsaw to cut off box at desired height to accommodate carpet, tile, or other flooring. Carlon leveling ring guarantees a level top every time, even if the box is tipped slightly during the pouring process.
