Universal Weatherproof Covers – Nonmetallic

Carlon® Nonmetallic Universal Weatherproof Covers

- UV Resistant – Suitable for outdoor use
- Fits all standard receptacles
- Flame retardant
- Temp. Rating: -60°F to 200°F
- 1/8” thick gasket
- Nonmetallic/Noncorrosive
- Single gang mounts vertically and horizontally
- In-Use: NEMA Type 3R Rated
- In-Use: Meets NEC Article 406.8(B) and CEC Subrule 26-706
- UL & c-UL Listed

Paintable surface with textured finish to hide scratches
Polycarbonate material for extra strength and durability
Patented base configuration knockout design

Knock-out plug ports for horizontal and vertical use (Single gang only)
QuickFit™ patented keyed mounting system fits different size screws

Adapter System

Single Gang

1. Base comes pre-configured for duplex installation.
2. Remove duplex and GFCI knock-outs.
3. Remove knock-outs from adapter for specific application.
4. Align the arrow on the adapter with the arrow on the back side of the base, and snap into position.

Double Gang

1. Base comes pre-configured for duplex installation.
2. For adapter use, remove duplex and GFCI knock-outs.
3. Choose appropriate adapter. Remove knock-outs from adapter until proper dimension.
4. Align the arrow on the adapter with the arrow on the back side of the base, and snap into position.

Installation

3 easy steps...
Includes base, cover, adapter(s) gasket, and mounting screws

1. Simply loosen box screws. Place gasket over the screws. There’s no need to remove receptacle or screws.
2. Align box screws with patent pending QuickFit™ mounting base, slide in place, and tighten screws.
3. Snap cover in place and you’re done!
**Universal Weatherproof Covers – Nonmetallic**

### Single Gang
- Mounts vertically and horizontally
- For use in wet/damp locations
- Mounts to an FS Box or nonporous flat surface

### Flat Covers – 5/8" Depth
- Nonmetallic. Won’t rust or fade
- Scratch resistant cover
- Paintable
- These covers must be mounted in accordance with all local and NEC/CEC requirements.

Carlon® Nonmetallic Recessed In-Use Weatherproof Covers

- NEMA Type 3R Rated
- Meets NEC Article 406.8(B)
- UV Resistant – Suitable for indoor or outdoor use
- Duplex or snapout to GFCI. (NO WALL PLATES REQUIRED.)
- Nonmetallic/Noncorrosive
- Hinged cover
- UL & c-UL Listed

Latch to keep cover closed

1/2" profile

Recessed to hide and protect outlets

Cover can be painted or wallpapered

Polycarbonate material for extra strength and durability

Accommodates 3/8" cords

Installation

New Work

1. TURN OFF POWER.
2. Assemble the nail-on box and the box sleeve together.
3. Install the nail-on box during electrical rough-in, prior to installation of wall board.

Configuring Cover Assembly:

DUPLEX: The base is ready for duplex. No further configuring needed.

GFCI: Configure base by using needle nose pliers to snap off the unnecessary pieces.

Note: Burrs may be removed with a utility knife.

4. Install the device to the cover by using the center mounting hole provided on the device.
5. Wire device according to device instructions.
6. Install the cover assembly on the box and tighten down with provided screws.

Note: For exterior installation, use provided gasket. If cover is to be installed on other than a smooth flat surface, use a 1/4" bead of silicone or equivalent caulking.

Installed

(Device not included.)
Recessed Weatherproof Covers

- For use in wet/damp locations
- Suitable for indoor or outdoor applications
- Weatherproof while in use
- Provides protection and insures safety
- Accommodates duplex or GFCI devices
- Cover can be painted or wallpapered
- Fast, easy installation
- Accepts 3/8” cords
- Nonmetallic. Won’t rust or corrode

Carlon® Nonmetallic Weatherproof Covers

- UV Resistant – Suitable for outdoor use
- Fits all standard receptacles
- Nonmetallic/Noncorrosive
- UL Marine Listed
- CSA Certified

Installation

Includes base, cover, gasket, and mounting screws

Box Mounting:

1. TURN OFF POWER.
2. Place gasket on top of outlet box.
3. Attach the device to the box.
4. Fasten cover to outlet box.

*Note: These covers must be mounted in accordance with all local and NEC/CEC requirements.*

Device Mounting:

1. TURN OFF POWER.
2. Place gasket on top of outlet box.
3. Fasten cover to outlet box.
4. To ensure a weatherproof seal, use a 1/4” minimum bead of RTV type silicone, neoprene, urethane, or polyurethane caulking between gasket and mounting surface.

*Note: These covers must be mounted in accordance with all local and NEC/CEC requirements.*

Paintable surface with textured finish to hide scratches

Snap-off lids for easy access to top screw holes

Polycarbonate material for extra strength and durability

Box or device mount

**Carlon® Nonmetallic Weatherproof Lampholders**

- UV Resistant – Suitable for outdoor use
- Accepts 150 watt max or 300 watt (incandescent only)
- Nonmetallic/Noncorrosive
- UL and c-UL Listed
- Approved for upward use in wet locations

**Installation**

Includes gasket, four lug nuts and two mounting screws

**Installation Instructions**

1. **TURN OFF ELECTRICITY BEFORE STARTING.**
2. Bring power leads into the outlet box and connect using proper wire nuts or insulation materials.
3. Use drill or nail to knock out holes on lampholder cover that align with outlet box. When completed, be sure visual perimeter of weatherproof gasket is even to assure proper seal.
4. Floodlight lampholders can be positioned using two different adjustments. Loosen locknut to turn lampholder assembly to desired position. Tighten locknut. Then depress pushbutton to adjust lampholder to final position.
Weatherproof Lampholders – Nonmetallic

- For use in wet/damp locations
- Ideal for residential or commercial applications – security/landscape
- Mounts to a device box
- Nonmetallic. Won’t rust or fade
- Paintable
- Easy to install
- Stay-in-place lighting arms

Carlon® Nonmetallic Weatherproof Fixtures

- Designed for indoor or outdoor use
- One-piece design with 20.25 cu. in. capacity
- Approved for dwelling
- Junction box approved
- Approved for 60° AWG wire with use of 150 watt lamp (temp glass globe required)
- Approved for through branch wiring – accommodates 8 no. 12 AWG through branch circuit conductors
- UL and c-UL Listed
- UL Marine Listed

Installation

Includes gasket, four lug nuts and two mounting screws

Installation Instructions

1. Disassemble fixture from base.
2. Make wire terminations according to the NEC or local electrical codes.
3. Fold fixture wire into fixture base.
4. Twist on socket assembly.
5. Fixture assembly is ready for lamp and globe installation.

Note:
- Plastic globes mounted in a VERTICAL POSITION (globe pointing down) can only use a maximum lamp size of 60 watts
- Glass globes mounted in a VERTICAL POSITION can only use a maximum lamp size of 100 watts
- HORIZONTAL mountings have a maximum lamp size of 60 watts
- It is NOT RECOMMENDED to mount plastic globes horizontally for incandescent applications.
- Carlon Weatherproof Fixture Bases and Globes are SOLD SEPARATELY
